SEWER RATES ESTABLISHED JANUARY THROUGH MARCH, 2016

The Town shall determine for each user the average monthly volume of wastewater discharged to the sewer system. This average monthly volume shall be determined by the average metered water usage during the “winter base period” of January through March of each year.

The customer’s rate is determined by the customer’s average monthly water usage during the winter base period and multiplying by the per-one-thousand-gallon charge in the rate schedule.

Weld Food Bank will be at 152 Poplar in Lochbuie on Monday, February 22, 2016 at 9:00 am to distribute food to those in need.

SNOW REMOVAL

The Town is pleased to be able to provide snow removal services to its residents, however we must ask that when you are shoveling your driveways and sidewalks, please put the snow on your existing lawns and other green spaces. Please do not put snow on or around water meters. It is our policy to remove snow from the main streets when 2 inches or more snow falls and the residential streets when 4 inches or more falls. All residents are required to shovel driveways and walks within 24 hours of a snow storm stopping.
